Tai Chi is a Chinese martial art and health exercise based on Taoist philosophy that emphasizes deep relaxation of mind and body. The form practice helps one to achieve this by developing greater awareness of 'here and now'. Through self-defense applications, students can experience how deep relaxation leads to optimal action, and can apply this idea to other physical disciplines and to enhance everyday life. Because it does not rely on brute force, Tai Chi is a rare example of an art of self-defense that can be used effectively against physically much stronger opponents.

**The Melt Method**- Using easy and gentle specialized techniques, a soft body roller, and small soft balls, MELT helps you identify stuck stress in your body and teaches you how to get rid of it. Learn how to increase your balance, stability, agility and joint mobility. Increase your athletic performance as well as create a general ease of everyday movement. All levels welcome.
